SUPPLEMENTING DESCRIPTIVE LISTS OF EVERGREENS, SHADE TREES, SHRUBS, HEDGE PLANTS, AND ROSES.

OFFERED BY

FAIRFAX FARMS NURSERY FAIRFAX, VA.

This nursery is located at Sideburn Station on the main line of the Southern Railroad sixteen miles west of Alexandria and four miles south of Fairfax, or Fairfax Court House, as it is often called. It may be reached by automobile from the hard surfaced Little River turnpike that runs from Alexandria west through Fairfax, turning south either at Ilda or Fairfax. Inspection of our stock is invited.

Below is a list, with prices, of the plants that we have in stock at this time. Everything offered consists of strong, vigorous plants, PREPARED (*to the best of our ability*), for the needs and *conditions* of the places for which they are recommended in the descriptions herewith. Some of the descriptions refer to plants which cannot be supplied in the "Prepared" grade, as the roots may not be properly developed, or the tops may not be of sufficient thickness or symmetry. In that case *they are not priced below*, but can be supplied on special quotation, for those who can give them good treatment and wait for the landscape effects. Sometimes we are sold out of the "Prepared" plants, and in that case we will write you and mention whether a different grade can be supplied. It is to the advantage of both the customer and ourselves to have orders placed in advance of planting season, so that the plants may be reserved. If satisfactory references are given, payment after delivery can be arranged.
